# Project Introduction

04

- **PG Connect** is an online platform designed to simplify the process of finding and booking PG (Paying Guest) accommodations. It bridges the gap between PG owners and students or working individuals looking for hassle-free, affordable stays without the need for physical brokers. By providing direct listings, transparent details, and online booking options, PG Connect offers a modern, user-friendly solution for PG hunting.
- **Why PG Connect?**
  - Time-Saving:** Say goodbye to long PG-hunting days — find and book rooms online.
  - Cost-Effective:** No brokerage or hidden fees — 100% transparent.
  - User Convenience:** Book from anywhere, anytime — all digital.

# Tools and Tech

In the PG Connect project, a combination of modern tools and technologies is used to ensure a smooth development process. HTML, CSS, JavaScript, and Bootstrap ensure a responsive and interactive front-end, while Python and Django handle back-end operations like data management and user authentication. PyCharm supports smooth development workflows.

Frontend

Backend

# System Modules

## Admin

Empowers the admin to manage subscription plans, monitor user and owner accounts, and oversee all PG listings to ensure platform quality and compliance.

## Pg\_Owner

Allow PG Owner to upload PG Listing, update or manage PG Details and Purchase Subscription plan to promote their PG.

## User

Enables users to search , view PG Details , book PGs, Leave Reviews and manage profiles.

PG CONNECT : FIND YOUR PERFECT STAY

# PG CONNECT Layouts

## Common Layout

show how user's roles(User , pg\_owner , admin)  
interact with the system in a simplified view

Admin Can manage and configure subscription plans for PG list

## 01 Login page

The image shows a screenshot of the Django administration login page. The page has a dark background. At the top, there is a teal header bar with the text "Django administration" and a small icon. Below the header, there are two input fields: "Username:" and "Password:". The "Username:" field contains the text "sumit". The "Password:" field contains a series of dots. Below the password field, there is a teal button labeled "Log in".
